RE: Provost's Undergraduate Fellowship, Project Number: F20-17
Project Title: A Video Game System to Assess Control Interfaces for Pediatric Prostheses

Dear Mira Welner,

Congratulations! You have been awarded a Provost's Undergraduate Fellowship in the amount of \$1800.00. Please note that due to the high number of qualified applications this year, we had to reduce many of the applicants' budgets in order to grant the greatest number of PUF awards. There were many outstanding applications, so I would especially like to acknowledge the tremendous accomplishment for taking the time and developing a successful application for funding. Your efforts demonstrate your personal commitment to scholarship and the commitment of your faculty mentor to support you in research and academic pursuits.

Funds will be transferred to your faculty sponsor's department. Please forward this letter, via email, to the finance contact in your faculty sponsor's department and ask them to set up an account with the fund type 39423. Please cc: urc@ucdavis.edu as well as your faculty sponsor with that email. You should confer with your sponsoring professor and with their departmental staff about accessing the funds to pay for your expenses. Any equipment (video/audio recording equipment, special lab items, computer software or hardware purchased, et cetera) acquired through the Provost's Undergraduate Fellowship is property of the University and cannot be retained by the student after completion of the project. The equipment is to be left in the custody of the department/lab and to be made available for assignment to possible future PUF projects in the department or college. ***These funds must be expended by December 31, 2021.*** If any remaining funds exist after this date, the URC should be contacted to arrange for any remaining funds to be returned.

Expectations of the Award:

1. As a Provost's Undergraduate Fellowship recipient, you are expected to present your work at the annual Undergraduate Research Conference, which takes place this year on April 28 through May 1, 2021. The abstract submission and registration site will be opened on January 7, 2021 through the Undergraduate Research Center website. Priority Deadline is February 9, 2021.
2. Remember to include the Undergraduate Research Center and the Provost's Undergraduate Fellowship in the Acknowledgement section of all presentations and publications.
3. You are required to submit a final report at this link, [PUF Final Report](#), no later than the end of the quarter immediately following completion of your project. This final report will include: a) a reflection describing your personal learning experience and value of the project, b) a description or summary of your project/research results, and c) a confirmation of your project expenses and any unexpended funds remaining.
4. In addition, you are also requested to fill out the [Student Spotlight Form](#) during or after the completion of your PUF project. The content of Student Spotlight Forms may be used for articles to be published on our website and other social media to showcase undergraduate research at UC Davis and to encourage other students to engage in research, scholarship and creative activities.

Again, congratulations on your award!
